PROFESSIONAL SUMMARY

Highly analytical and detail-oriented Software Engineer & Data Analyst with a strong foundation in Mathematics (Data Science) and Computer Programming. Experienced in building robust full-stack applications, optimizing high-throughput data pipelines, and integrating backend APIs. Co-author of peer-reviewed scientific research, demonstrating deep technical judgment, query diagnostics, and logical problem-solving. Skilled in Python, JavaScript/TypeScript, SQL, and DevOps tools.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL (HackerRank Intermediate), Java, C#, R, HTML5/CSS3
Frameworks & API Engineering: Next.js, Node.js, Express, React, Flask, REST APIs, WebSockets, Prisma ORM
Databases & Systems: MySQL, PostgreSQL, SQLite, SQL Server, Linux CLI, Active Directory, Oracle IAM
DevOps & Methodologies: Docker, Docker Compose, Git/GitHub, Automated Testing, AI-Assisted Workflows

PROFESSIONAL EXPERIENCE

Software Engineer & Data Analyst | Operations & Logistics Management Firm | Brooklyn, NY
January 2026 – July 2026

- **Integrations & Pipelines:** Designed and tested a Node.js/TypeScript pipeline to clean and ingest **400,000+ daily operational records** into a MySQL database, optimizing query performance and database indexing.
- **Backend APIs:** Deployed Python/Flask REST APIs to connect telephony event logging to an Odoo ERP database system, ensuring secure authentication and real-time UI tracking.
- **C# Tooling & Automation:** Programmed a custom interactive voice response (IVR) utility using **C#** and 3CX Call Flow Designer, automating database lookups and routing calls dynamically based on real-time queries.
- **AI Data Pipelines:** Developed an automated Python transcription and summarization pipeline using OpenAI Whisper to compile unstructured call data from **10,000+ logs** into searchable database records.

Resident Assistant | Housing & Residence Life, MSU Billings | Billings, MT
August 2023 – December 2025

- **Administrative & Stakeholder Management:** Managed log records, incident reporting, and safety protocols for a community of **400+ residents**, partnering with university administration and housing directors.
- **Conflict Resolution:** Led community engagement initiatives, resolved student disputes under pressure, and managed local housing budgets. Awarded the university's **Outstanding RA Award**.

Web Engineer (Volunteer) | Mommy's Heart | New York, NY (Hybrid)
December 2025 – January 2026

- **Frontend Maintenance:** Collaborated on updating and maintaining public e-commerce web presence using HTML5 and CSS, ensuring cross-browser responsiveness.

Information Security Intern | Billings Clinic | Billings, MT
May 2025 – November 2025

- **Access Auditing:** Audited user databases, managing system permissions and security compliance for **400+ users** across Oracle IAM and Active Directory.

Information Technology Student | IT Department, MSU Billings | Billings, MT
May 2023 – August 2023

- **Systems Support:** Diagnosed workstation issues on Linux environments and assisted in troubleshooting local SQL Server database queries.

ACADEMIC RESEARCH & PROJECTS

Co-Author — GPS Signal Attenuation Study | *Mathematics Department, MSU Billings*

- Co-authored peer-reviewed research analyzing GPS signal attenuation caused by meteorological precipitation in the North American region. Developed statistical models using Python and R, collected satellite signal datasets, and performed regression analysis.

Niko OS (Personal Full-Stack AI Project) | *Next.js, TypeScript, Python, SQLite, Git*

- Designed and built an offline desktop assistant using PyTorch/ONNX models (Whisper speech-to-text), WebAssembly voice activity detection (VAD), and a responsive Next.js frontend with local context memory.

EDUCATION

Bachelor of Science in Mathematics — Data Science Concentration

Montana State University Billings | Billings, MT | *Graduated: December 2025*

• *GPA:* 3.25 • *Awards:* 2026 Outstanding Mathematics Scholar Award

Associate of Applied Science — Computer Programming & Application Development

Montana State University Billings | Billings, MT | *Graduated: May 2024*

• *GPA:* 3.20 • *Core Courses:* Object-Oriented Programming (Java/Python), Databases/SQL, Web Development
